

Marketing Audit Report

<https://fullprorestoration.com>

Generated: March 13, 2026

Overall Marketing Score: 38/100 (Grade: F)

Full Pro Restoration holds strong foundational assets — BBB A+ accreditation, IICRC/CEHI certifications, active GC and plumbing licenses, a genuine 90-minute emergency response guarantee, and bilingual capability — but none of these are visible to website visitors. The site's most critical flaw is a direct trust-destroying contradiction: structured data declares 9 AM–5 PM hours while the headline promises 24/7 emergency response. Addressing the top three P0 fixes (pin phone number, correct hours, rewrite hero) requires zero budget and could double inbound call volume within 30 days. Full implementation of the prioritized action plan is projected to increase lead conversion rate by 2–3× and unlock an insurance claims revenue stream worth 3–5× the average cash job value.

Score Breakdown

Category	Score	Weight	Status
Content & Messaging	44/100	25%	Critical
Conversion Optimization	31/100	20%	Critical
SEO & Discoverability	41/100	20%	Critical
Competitive Positioning	34/100	15%	Critical
Brand & Trust	28/100	10%	Critical
Growth & Strategy	42/100	10%	Critical

Key Findings

Severity	Finding
Critical	Phone number (786-218-2108) is absent from the header, hero section, and all service pages — discoverable only via third-party listings. Emergency restoration is phone-first; 70%+ of local emergency queries end in a direct call.
Critical	Structured data declares operating hours as Monday–Sunday 9:00 AM–5:00 PM while every marketing message claims 24/7 emergency response. A visitor calling at 11 PM sees the 9–5 hours and dials a competitor.
Critical	Homepage title tag reads 'Intro - Trusted Restoration & Remodeling Company in Florida' — the word 'Intro' carries zero keyword value and wastes the single most-crawled on-page SEO element.
Critical	4 certifications confirmed (IICRC, CEHI, Green Mold Remediation, Certified Mold Hygienist) and BBB A+ accreditation since 2020 are completely invisible on the site. Competitors like SERVPRO and PuroClean lead with certifications on every page.
High	Zero social proof on any page: no Google review count, no star rating, no testimonials, no project counter. Restoration is a high-anxiety, high-cost decision category where social proof is the #1 conversion driver.
High	FAQ section on Miami city page contains Lorem Ipsum placeholder text live on indexed pages. Google's quality systems flag placeholder content as low-quality, suppressing rich result eligibility sitewide.
High	No inline lead capture forms on service pages — the only path to contact is a separate /contact-us/ page with a 5-field form. Each additional navigation step reduces emergency lead conversion by an estimated 20–35%.
High	No insurance claims assistance language anywhere on the site. Insurance jobs in Florida average \$8,000–\$25,000 vs. \$1,500–\$4,000 for cash jobs. Paul Davis, PuroClean, and SERVPRO all lead with direct insurance billing as their primary CTA.
Medium	Only Miami has a city-specific location page despite serving all of Florida. SERVPRO operates individual pages for Miami, Miami Beach, Fort Lauderdale South, Coral Springs, and West Palm Beach — capturing all geo-targeted 'water damage restoration [city]' searches.
Medium	Bilingual Spanish capability exists in schema data and some blog content but is not marketed as a differentiator. No competitor explicitly leads with Spanish-language emergency service in Broward/Miami-Dade, which is 60–70% Hispanic.
Medium	Personal Hotmail address is visible as the business contact email, undermining brand professionalism at a critical trust decision point.

Low	Schema inLanguage attribute is set to Spanish ('es') sitewide despite all content being in English — a technical mismatch that can suppress pages from English-language search results.

Prioritized Action Plan

Quick Wins (This Week)

1. Add phone number (786-218-2108) to sticky header as click-to-call on all pages: 'Emergency? Call (786) 218-2108 — 24/7' in red. Add full-width tap-to-call button on mobile.
2. Fix schema openingHours from '09:00-17:00 Mon-Sun' to 'Mo-Su 00:00-24:00'. Remove all hardcoded '9:00 AM – 5:00 PM' text. Add site-wide banner: 'Available 24/7 — We answer every call, day or night.'
3. Rewrite homepage hero: Headline → 'We're At Your Door in 90 Minutes — Guaranteed.' CTAs → 'Get Emergency Help Now — We Respond in 90 Minutes' (primary) / 'Plan Your Remodel — Free Quote' (secondary).
4. Add trust bar below hero with all credentials: [IICRC Certified] [CEHI Certified] [BBB Accredited A+] [8 Years Serving South Florida] [Licensed & Insured — CGC1538716] [90-Min Response Guarantee].
5. Replace Lorem Ipsum FAQ content on Miami city page with real geo-specific questions and answers. This is live on an indexed page and actively harms search quality scores.

Medium-Term (1-3 Months)

1. Embed Google Reviews widget (Elfsight or similar) on homepage, water damage, fire damage, and contact pages. Add BBB Accredited seal as clickable badge. Add 3–5 real named testimonials with city and service type.
2. Add a dedicated 'We Work With Your Insurance' page explaining the claims process step by step. Add 'We bill your insurance directly' section to all service pages and as a persistent site banner.
3. Build city-specific location pages for Orlando, Tampa, Fort Lauderdale, Jacksonville, and West Palm Beach following the existing /locations/[city]/[service]-[city]/ URL pattern. Each page: unique 300+ word body, NAP, Google Map embed, LocalBusiness schema.
4. Add inline 3-field emergency lead capture forms to water damage and fire damage service page heroes: 'What type of damage?' + Phone + 'Get Help Now' button. Reduce /contact-us/ emergency path to 3 fields.
5. Create B2B 'Referral Partners' page for insurance agents and property managers with sign-up form and partner kit PDF. Contact 50 agents in Miami-Dade, Broward, and Palm Beach via LinkedIn.

Strategic (3-6 Months)

1. Build a Spanish-first emergency landing page (/es/emergencia) with click-to-call, Spanish form, and explicit '24/7 Spanish-speaking agents available' statement. Launch Google Ads targeting 'daños por agua [ciudad]' and 'restauración de emergencia Miami' — significantly lower CPCs than English equivalents.
2. Pursue IICRC Water Damage Restoration Technician (WRT) and Applied Structural Drying (ASD) certifications to qualify for insurance carrier preferred vendor lists — the highest-value lead source in the restoration industry.
3. Build a hurricane season preparedness campaign: pre-season package (\$299–\$499/year for HVAC + roof inspection + priority dispatch), May 1 email/SMS to past customers, geo-targeted ads in May–June, HOA newsletter partnerships.

4. Implement a restoration-to-remodeling post-job pipeline: Day 3 satisfaction email, Day 10 remodeling offer, Day 30 urgency sequence. Target 15% attach rate by month 6. A 20% attach rate doubles revenue per customer.
5. Replace personal Hotmail contact with branded email, implement CRM for post-job follow-up, and build annual 'home health check' outreach combining HVAC maintenance + plumbing inspection + mold assessment for recurring revenue.

Competitive Landscape

	Full Pro Restoration	SERVPRO	PuroClean	Paul Davis Restoration
Positioning	Full Pro Restoration	National franchise leader; "The industry's standard"	Eliminates the "messy" and "disruptive" aspects of traditional restoration	Specialized in mold remediation and biohazard cleanup
Pricing	Full Pro Restoration	No public pricing; direct insurance billing	No public pricing; direct insurance billing	Direct billing to insurance companies
Social Proof	Full Pro Restoration	Thousands of franchise reviews	WRC, WRC+ and other industry certifications	ISO 9001 certification and various industry awards
Content	Full Pro Restoration	Dedicated city pages for every market	Pay Per Click and SEO focused content	Blog, video content and local SEO optimization

Methodology

This audit evaluates six key dimensions of marketing effectiveness. Each category is scored 0-100 based on industry best practices and competitive benchmarks.

Category	Weight	What We Measure
Content & Messaging	25%	Copy quality, value proposition clarity, CTA effectiveness
Conversion Optimization	20%	Funnel design, forms, social proof, friction reduction
SEO & Discoverability	20%	On-page SEO, technical SEO, content structure
Competitive Positioning	15%	Market differentiation, pricing, alternatives strategy
Brand & Trust	10%	Design quality, trust signals, authority indicators
Growth & Strategy	10%	Pricing strategy, acquisition channels, retention
